

BPCA LEVEL UP Pest Ex

OFFICIAL
SHOWGUIDE

18-19 March '26
Excel, London

The pest management show

WORKING
TOGETHER
TO LEVEL UP
THE SECTOR!

#PestEx2026

ARE YOU READY TO LEVEL UP?

It's our favourite time of year: PestEx 2026 is just around the corner!

Our two-day event is the jewel in our events crown and will be back at the Excel in London on 18 and 19 March.

In a world where we're all striving to demonstrate professionalism, this year's theme is about levelling up and delivering more:

- A bigger floorplan with more exhibitors
- Panel sessions across two days in the Spotlight Theatre
- New and familiar experts in the Technical Theatre
- Hands-on challenges on the Pelsis proofing stand
- New products, fresh innovations, competitions, and giveaways.

Yes, you read that right. We don't seem to be able to just stand still, so of course we've increased the exhibition space - again!

This means more stands to visit, more products to see and more chances to get to grips with the latest pest control technology and the people who bring you those products.

Taking the time to speak with

manufacturers and distributors of pest control products gives you fresh insight into the latest industry trends - valuable knowledge that helps you stay competitive and informed.

Don't underestimate the power of interactive learning! There's no substitute for getting into a room and experiencing live demonstrations of products and engaging in workshops.

Check out who will be exhibiting on pages 4-5.

Pest control doesn't have to be a solo game

From large companies to sole traders, connections are so important in pest control.

If you're looking to forge new partnerships, get advice or exchange ideas, PestEx 2026 is going to be your chance to connect with likeminded pest professionals, product makers, and industry leaders.

PestEx is the biggest networking opportunity you'll have in the UK pest control industry - as a truly international event, we have visitors and exhibitors from all over the

world across two days.

This year we've built in more chances to connect, including our Young Professionals meet-up in the coffee area, because those conversations matter.

The XP grind

Knowledge isn't just given - it's earned. And PestEx gives you two days of seminars, debates and case studies to learn from, engage with and reflect on.

That's a whopping 13 CPD points up for grabs and every single one of them keeps you building on your expertise, to make you the best pest controller you can be.

This year you'll hear from industry bods on topics ranging from yellow-legged hornets, rodent trapping and bird control surveys to acquisitions and working with EHOs.

Learn all about best practice, industry news, and emerging challenges facing pest management at the biggest gathering of pest control experts in the UK, where industry professionals share knowledge and insights.

The full list of seminars and sessions can be found on page 6.

START GAME

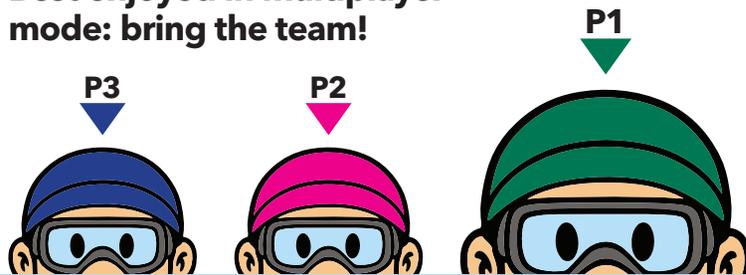

YES

NO

Best enjoyed in multiplayer mode: bring the team!

Don't miss out!

Visit pestex.org/register before March 1 to make sure you and your team are on the guest list.

With the latest innovations in the industry to see, competitions and prizes to be won, and a ton of CPD opportunities to take advantage of, you can't afford to miss the chance to be part of the biggest pest control experience in the UK.

See you there!

BPCA Events

Best wishes from
BPCA's Events team.

BAG SOME CPD POINTS

BPCA Registered

Each seminar session will be worth one CPD point with a maximum of seven points available per day. Remember, you can log unstructured learning to your CPD diary for anything you learn on stands or in meetings at PestEx.

Basis Prompt

Two points for attending PestEx, plus one point for each seminar and an additional point for completing the Basis knowledge trail (with a maximum of six points each day).

Don't forget to include your CPD number when you register for the event, to ensure we can scan your seminar attendance on the day.

Opti-Catch

The direct replacement UV LED Lamp

Opti-Catch is retrofittable to fluorescent switch-start UV insect traps and compliant with current and future regulations.

- 10% better fly catch rate
- Dual-LED technology
- 66% more energy efficient
- Includes GlassGuard® shatter-proof coating
- Mercury-free
- 3-year guarantee

All seminars are completely free and open to everyone.

TECHNICAL THEATRE

sponsored by  

WHAT CAN YOU LEARN AT PESTEX THIS YEAR? **CPD** **13 CPD POINTS UP FOR GRABS DURING PESTEX!**

DAY ONE - MARCH 18

09:30 - 10:15

EXTERMINATOR TO CHAMPIONING SUSTAINABILITY: A LEADERSHIP ODYSSEY IN IPM

Presented by Viren Merchant, Vice president Global Pest Management Coalition
Drawing on 25 years of experience in India as an IPM practitioner, consultant, and subject-matter speaker across multiple continents, this session explores the evolution of professional pest management to this age of scientific innovation.

10:30 - 11:15

LOW OXYGEN, LOW RISK: EXPANDING THE IPM TOOLKIT FOR ARTS AND HERITAGE CONSERVATION

Presented by Hans Thompson, ANOXART
Freezing remains central to UK museum pest control. This talk explores decision-making when further treatment is needed, presenting research on anoxic methods and comparing anoxia and heat as secondary IPM options, alongside international practice.

11:30 - 12:15

HACCP INTERNATIONAL CERTIFICATION SCHEME

Presented by Rob Beeken, HACCP International
This presentation explores the HACCP International Pest Management standard, what it means in practice, and why professional pest management plays a key role in building reliable and compliant food safety systems.

12:30 - 13:15

REVOLUTIONISING FLY CONTROL: THE INNOVATION BEHIND SECLIRA® FLY BAIT

Presented by Jeferson de Andrade, BASF
Discover how Seclira® Fly Bait is redefining fly control. This session explores the science behind its fast, long-lasting performance and low environmental impact, showing why it's a game-changer for modern pest management.

13:30 - 14:15

"DON'T JUST LOOK UP" - PRINCIPLES FOR SURVEYING IN BIRD CONTROL

Presented by Carl Hault, Reaper Bird Control
In bird management, the surveyor is vital. They assess safety, access, legislation and the scale of the issue, considering buildings, traffic and equipment – proving surveying is about far more than just looking up.

14:30 - 15:15

THE EMPLOYMENT RIGHTS ACT 2025: THE BIGGEST CHANGE TO EMPLOYMENT RIGHTS IN A GENERATION

Presented by Hema Mistry, Quest Cover
This session outlines key employment law changes under the Employment Rights Act 2025, offering practical guidance for employers. The Act aims to strengthen worker rights, ensure fair pay, improve work-life balance and modernise UK employment practices.

15:30 - 16:15

DATA DIVE: WHAT THE 2025 FUTURE OF PEST MANAGEMENT SURVEY TELLS US

Presented by Representatives from the Academic Working Relations Group
Hundreds of pest professionals answered our 2025 survey. Hear the executive summary and get to grips with the latest industry data exclusively at PestEx.

DAY TWO - MARCH 19

09:30 - 10:15

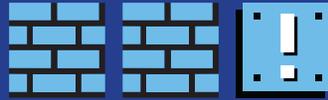

A SECTOR STUCK AT LEVEL 2: BUILDING A QUALIFICATIONS FRAMEWORK FIT FOR THE FUTURE

Presented by John Horsley, BPCA
Unlock your expertise and future-proof your career! Discover how the new qualification framework will create professional career pathways, with a focus on practical skills. We'll explore why many technicians stop at Level 2 and what it takes to go further. John will also discuss the transition to the new framework and highlight the importance of continued professional development.

CONTINUED ▶

DAY ONE - MARCH 18

10:30 - 11:15

BORING BUT BRILLIANT: WOOD BORING INSECTS - IDENTIFICATION, SURVEYING & SIGNS

Presented by Nicholas Donnithorne, Rentokil Property Care

There's nothing boring about wood-boring insects! These pests need specialists, but all pest pros should know how to identify them: traits, frass, exit holes, detection tools, and where to find further training.

13:30 - 14:15

WRITE IT RIGHT: COURT-READY PEST REPORTS THAT WON'T GET TORN APART

Presented by Dr Belinda Stuart-Moonlight, Chartered Environmental Health Practitioner and Expert Witness

Pest control reports are key in food safety litigation, helping assess if businesses meet pest control obligations. However, inconsistent or incorrect advice can put contractors at risk, despite food businesses relying heavily on these reports.

09:30 - 10:15

SPEC CHECK: UNDERSTANDING AND DELIVERING TO PEST CONTROL SPECIFICATIONS

Paul Westgate (Veritas Pest Consultancy), Chris Swindells (Kiwa Independent Pest Consultancy), Katie Young (Beacon Compliance), Derek Hopkins (Pret A Manger)

11:30 - 12:15

AVOIDING ILLICIT PRODUCT PITFALLS

Presented by Richard Moseley, Syngenta

Professional pest controllers are warned to source products like Advion Cockroach and Ant gel only from authorised distributors to avoid counterfeit risks. Syngenta's Richard Moseley will highlight the growing threat of illegal, fake products at BPCA PestEx seminars.

14:30 - 15:15

THINKING INSIDE THE BOX: UNDERSTANDING RODENT BEHAVIOUR AROUND BAIT STATIONS

Presented by Alex Wade, Wade Environmental

Understanding rodent behaviour helps improve bait station use. This session covers neophobia, hoarding, effects of box design, and how to set stations rodents will actually use.

10:30 - 11:15

PESTS IN POLITICS LIVE - PROTECTING THE FUTURE OF PEST MANAGEMENT CHEMICALS

Alex Wade (Chair of O&C Committee), Dawn Kirby (Rentokil Initial), Stuart Green (Compliance Services International), Jon Gerlis (CIPR)

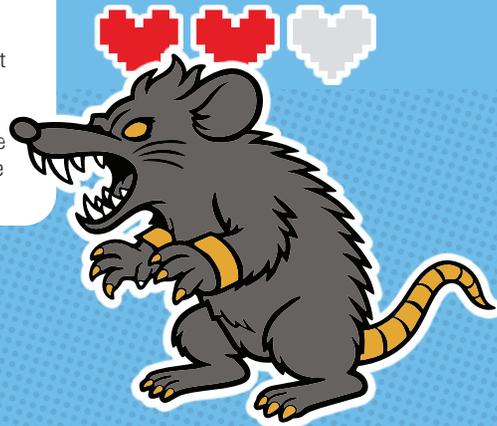

12:30 - 13:15

WHY WE SHOULD BE MORE WASP-POSITIVE

Presented by Professor Seirian Sumner, University College London

No one likes wasp nests, but wasps are vital ecosystem helpers – as predators, pollinators, and recyclers. This talk explores their importance and how pest controllers can support a more wasp-tolerant future.

11:30 - 12:15

PARTNER PERFECT: HOW TO WORK HAND-IN-HAND WITH YOUR LOCAL ENVIRONMENTAL HEALTH DEPARTMENT

Matt O'Donnell (iX5 Pest Control), Fergal Flynn (PPM Services), Katie Young (Beacon Compliance), Brian O'Donnell (Graham Pest Control)

11:30 - 12:15

NEW BLOOD: HOW TO BRING IN THE NEXT GENERATION OF PEST PROFESSIONALS

Julia Pittman (Chair of EDI Committee), Stephen Jacob (TIAH), Kylie Wright (Right Environmental Services), Tony Hyland (DWP)

12:30 - 13:15

SMARTER SURVEYING TECHNIQUES FOR SELLING PEST CONTRACTS

Elaine Bliss (PestFix), Jason Cholerton (CSS Pest), Darron Pearce (Rattracts Pest Control), Mick Hayward (Fen Pest Control)

13:30 - 14:15

LEVELLING-UP TO GET AHEAD: CREATING AMAZING PEST CONTROL TEAMS

Paul Bates (Cleankill), Chris Cagienard (Pest Solutions), Natalie Bungay (Pestforce), Martin Rose-King (Bounty Pest Control)

14:30 - 15:15

USING INSECT PHYSIOLOGY TO GET THE BEST OUT OF MONITORING PROGRAMMES

Tom Holmes (Inovus), Sam Thorpe (Predator Pest Solutions), Sophie Thorogood (Pelsis), Beth Hadfield (Check Services)

12:30 - 13:15

BUYING AND SELLING PEST MANAGEMENT COMPANIES (WITHOUT GETTING STUNG)

Adrian Gough (Pest Risk Management Group), Caspar Appeldoorn (Pest Control Partnership), Henry Mott (Vergo), Shaun Azhar (Anticimex)

13:30 - 14:15

THE HORNET'S NEST: DEBATING INVASIVE YELLOW-LEGGED (ASIAN) HORNET CONTROL IN THE UK

Chris Venables (Venables Pest Control), Dan Etheridge (APHA), Simon Spratley (Bounty Pest Control), Lucie Chaumeton (BBKA)

14:30 - 15:15

A RODENT'S-EYE VIEW OF TRAPPING: WHAT REALLY WORKS WHEN CHEMICALS AREN'T AN OPTION?

Oliver Smith (Wildtrack Pro), Mick Hayward (Fen Pest Control), David Lodge (Beaver Pest Control), Melvin Knapp (Killgerm Chemicals)

15:30 - 16:15

PEST MANAGEMENT IN 2030: CHALLENGES, OPPORTUNITIES AND CRYSTAL BALLS

Tim Bloomer (Killgerm Chemicals), Natalie Bungay (Pestforce), Sebastian Junge (Futura), Gary Nicholas (Syngenta), Colin Harrison (Anticimex)

DAY TWO - MARCH 19

09:30 - 10:15

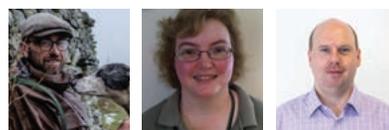

RESISTANCE IS NOT FUTILE: IS INSECTICIDE RESISTANCE OUR NEXT CHALLENGE?

Dr Ife Fagbohun (dot), Richard Faulkner (envu), Martin Cobbald (Dealey Environmental), Dr Richard Naylor (Bed Bug Foundation)

10:30 - 11:15

A PEST CONTROLLER'S BEST FRIEND? WORKING ANIMALS IN PEST MANAGEMENT

Simon Whitehead (Pakefield Ferrets), Angela Bigwood (A&M Hawk UK), Adam Juson (Merlin Environmental)

WORKING TOGETHER TO LEVEL UP: WHO'S EXHIBITING AT PESTEX'26?
